UTILITY FACILITIES -- Any water supply, water treatment, water pumping, water storage or other water facility; any sewerage treatment or pumping facility; any electrical generating facility, electrical transmission, switching facility, or electrical substation, any telephone exchange or other similar telephone communication facility; any natural gas pumping or storage facility; or any cable television receiving or transmission facility, when owned and operated by the City of Kenedy the City of Kenedy, or any utility or communications concern operating under a franchise approved by the City Council

VARIANCE -- A variance is a relaxation of the terms of the zoning ordinance where such variance will not be contrary to the public interest and where, owing to conditions peculiar to the property and not the result of the

actions of the applicant, a literal enforcement of the ordinance would result in unnecessary and undue hardship. Except as specifically authorized in Sections 20 and 21, a variance is authorized only for height, area, and size of structure or size of yards and open spaces. The establishment or expansion of a use otherwise prohibited shall not be allowed by variance except as provided in Sections 20 and 21, nor shall a variance be granted because of the presence of non-conformities in the zoning district or uses in an adjoining zoning district.

VETERINARY CLINIC -- An establishment for the care and medical veterinary practice on or for domestic household animals, conducted completely within an enclosed structure. This term shall also include "animal clinic".

WASHATERIA -- A building or place where clothes and linens are washed and thoroughly dried on a self-service basis by the use of washing, drying and ironing machines.

YARD -- A required open space other than a court unoccupied and unobstructed by any structure or portion of a structure from thirty inches (30") above the general ground level of the graded lot upward, provided however, that fences, walls, poles, posts, and other customary yard accessories, ornaments, furniture, and roof overhangs not exceeding thirty inches (30"), may be permitted in any yard subject to height limitations and requirements limiting obstruction of visibility.

YARD, FRONT -- A yard extending between side lot lines across the front of a lot adjoining a public street (See Figure 3)

In the case of through lots, unless the prevailing front yard pattern on adjoining lots indicates otherwise, front yards shall be provided on all frontages. Where one of the front yards that would normally be required on a through lot is not in keeping with the prevailing yard pattern, the Administrative Official may waive the requirement for the normal front yard and substitute therefore a special yard requirement which shall not exceed the average of the yards provided on adjacent lots.

In the case of reversed frontage corner lots, a front yard of the required depth shall be provided on either frontage, and a second front yard of the depths required for second front yards in the district shall be provided on the other frontage.

In the case of corner lots with more than two frontages, the Administrative Official shall determine the front yard requirements, subject to the following limitations.

- a. At least one front yard shall be provided having the full depth required generally in the district;
- b. No other front yard on such lot shall have less than the minimum required second front yard for corner lots.

Depth of required front yards shall be measured at right angles to the front lot line.

YARD, SIDE -- A yard extending from the rear line of the required front yard to the front of the required rear yard, or in the absence of any clearly defined rear lot line to the point on the lot farthest from the intersection of the lot line involved with the public street. In the case of through lots, side yards shall extend from the rear lines of front yards required. (See Figure 3)

Width of a required side yard shall be measured in such a manner that the yard established is a strip of the minimum width required by district regulations with its inner edge parallel with the side lot line.

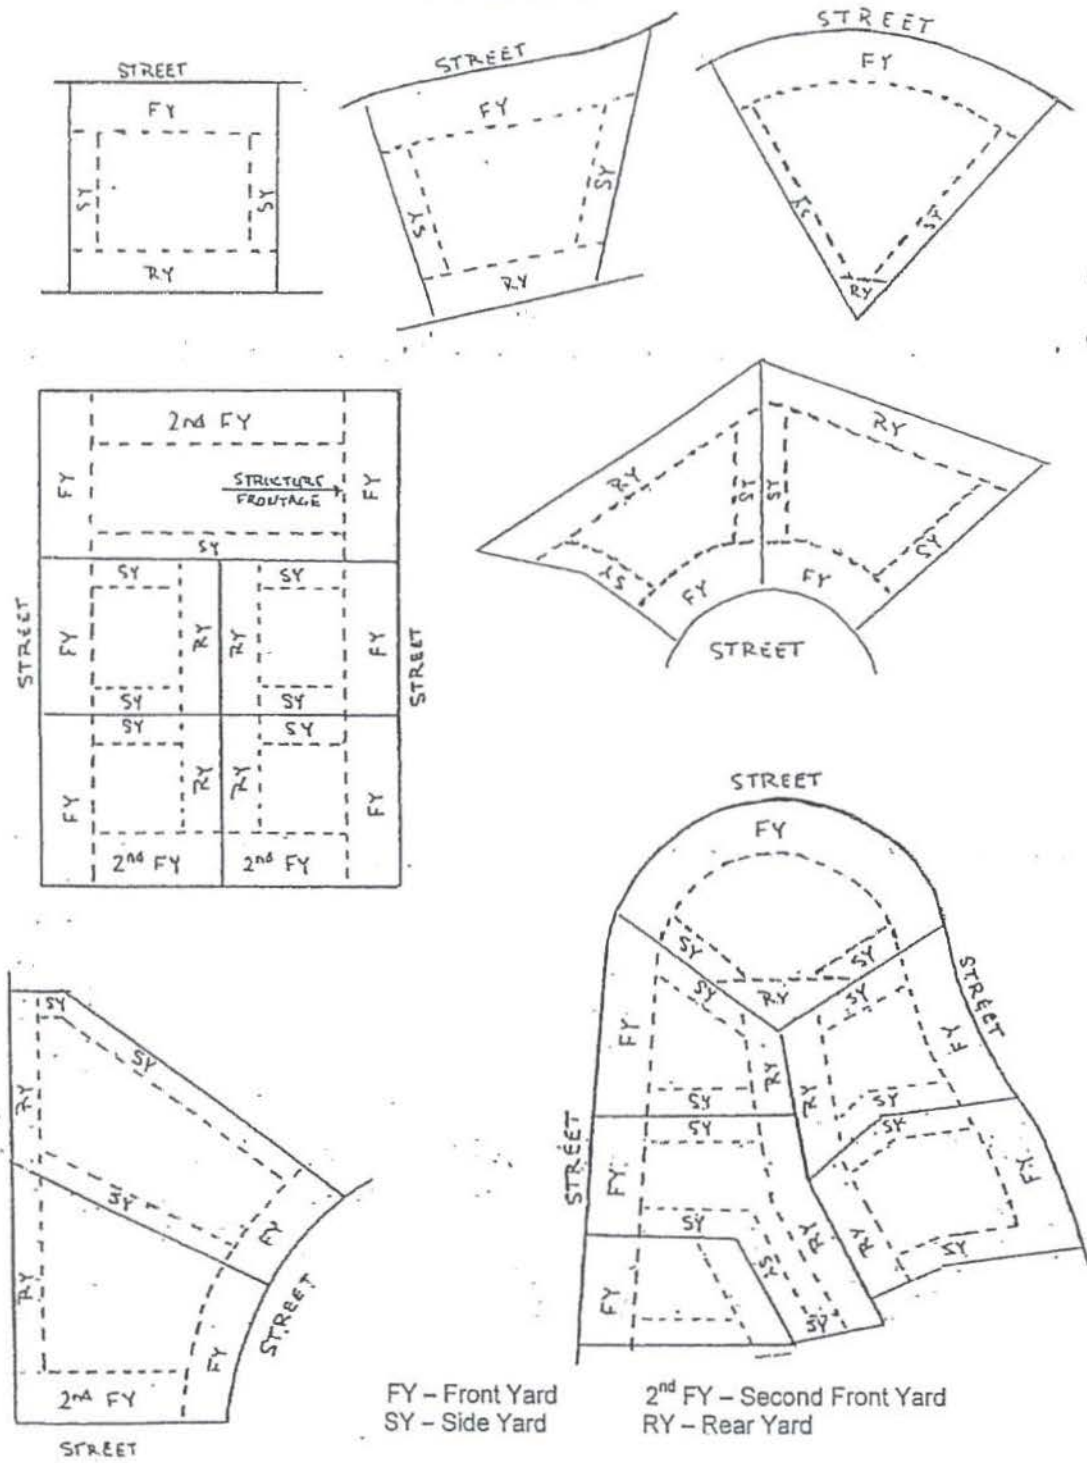

YARD, REAR -- A yard extending across the rear of the lot between lot lines. In the case of through lots there will be no rear yards, but only front and side yards. All other lots will have rear yard. (See Figure 3)

Depth of a required rear yard shall be measured in such a manner that the yard established is a strip of the minimum width required by district regulations with its inner edge parallel with the rear lot line.

In cases where a rear lot line is not evident, or if evident but not parallel to the front building line, the minimum rear yard requirement shall be the distance from the rear-most point of the lot along a line from that point drawn perpendicular to a line drawn from the foremost points of the two side lot lines, providing that the rear yard is parallel to at least one lot line along the rear of the lot.

YARD, SPECIAL -- A yard behind any required yard adjacent to a public street, required to perform the same functions as a side or rear yard, but adjacent to a lot line so placed or oriented that neither the term "side yard" nor the term "rear yard" clearly applies. In such cases, the administrative official shall require a yard with minimum dimensions as generally required for a side yard or a rear yard in the district, determining which shall apply by the relation of the portion of the lot on which the yard is to be located to the adjoining lot or lots, with due regard to the orientation and location of structures and buildable areas thereon.

Hazardous liquid materials must be stored in a contained area.

Additional Standards: The Planning and Zoning Commission may establish additional performance standards to protect neighboring areas and land uses from potential industrial hazards and nuisances.

The procedure is intended to allow broad public review and evaluation of the proposed development and to ensure adequate mitigation of potentially unfavorable impacts.

B. SUBMISSION REQUIREMENTS AND PROCEDURE

An application for a Conditional Use Permit shall be submitted to the Administrative Official, along with any applicable fee required by Section 30, in accordance with rules established by the Planning and Zoning Commission prior to the established application-filing deadline for the next regular meeting of the Planning and Zoning Commission. The application shall include the same information required in Section 16 for a development site plan. The Administrative Official shall schedule a public hearing at the next regular meeting of the Planning and Zoning Commission and shall provide notice to property owners of real property lying within two hundred feet (200') of the property on which a conditional use is sought. Such notice shall be mailed to property owners no less than ten (10) days before the date set for the public hearing. Notice of the public meeting shall be posted at least seventy-two (72) hours prior to the public hearing in accordance with State law.

The Administrative Official shall review the application and submit a report to the Planning and Zoning Commission. This report shall be made available to the applicant prior to the public hearing.

- 2 Compatibility with existing or permitted uses on abutting sites in terms of building height, bulk, scale, setbacks, open spaces, landscaping and site development, and access and circulation features.
- 3 Potentially unfavorable effects or impacts on other existing or permitted uses on abutting sites, to the extent such impacts exceed those which reasonably may result from use of the site by a permitted use
- 4 Location, lighting, and type of signs, and relation of signs to traffic control and adverse effect on adjacent properties.
- 5 Safety and convenience of vehicular and pedestrian circulation in the vicinity, including traffic reasonably expected to be generated by the proposed use and other uses anticipated in the area considering existing zoning and land uses

D. LAPSE OF APPROVAL AND MODIFICATIONS

A Conditional Use Permit shall be valid for one (1) year from the date of approval unless prior to such expiration date a building permit is issued and construction occurs or the actual use, if not requiring a building permit, is commenced. The expiration date may be extended by the City Council upon application. The notification procedures specified in B SUBMISSION REQUIREMENTS AND PROCEDURE shall be followed for consideration of any requested continuance.

Approval of a Conditional Use Permit automatically expires upon change in ownership of the land, unless the Commission or City Council determines as part of its specific approval of a Conditional Use Permit, that transfer of the authorization to a subsequent owner is in the best interest of the City. The Planning and Zoning Commission may grant continuance of the conditional use upon application to the Commission. The notification procedure specified in B SUBMISSION REQUIREMENTS AND PROCEDURE shall be followed for consideration of any requested extension.

Minor modifications of a Conditional Use Permit may be made if the Administrative Official determines that such modifications will not change the intent and effect of the approval by the Planning and Zoning Commission.

Such findings of the Board, together with the specific facts upon which it is based, shall be incorporated into the official minutes of the Board of Adjustment meeting at which such variance is granted.
